## DEAN'S MESSAGE

"The Sarasota Regional Campus continues to prosper, and our community is beginning to realize the benefits. Our clinical physician faculty and partner organizations have worked with us to implement a powerful mentorship that has nurtured both professional and personal growth in our students. Our goal is to return our students to Sarasota after their residency training as exemplary physicians who provide patient-centered care to our community. Already, we have had several students return as primary care physicians to practice medicine in Sarasota and the surrounding communities. We are also creating a scholarship fund to help defray student debt. In addition, we are establishing translational clinical research in concert with our other regional campuses and the central campus in Tallahassee. And we are revising our curriculum to incorporate new technology and new thinking. I am confident that, with the help of our clinical partners, we will succeed in accomplishing these goals as we continue to move into the 21st century."

*Bruce Berg, M.D., Campus Dean*
