CURRICULUM DEVELOPMENT

2003 – 2008

Director, Behavioral Science Curriculum

Development of courses with behavioral science, cultural and psychosocial content consistent with USMLE and LCME defined knowledge and skills as well as skills and attitudes consistent with FSUCOM mission.

Collaboration with course directors, education directors and clerkship directors on integration of behavioral science across the four years of the curriculum through presentations, faculty development, case development, standardized patient training and exam question development.

PROGRAM DEVELOPMENT

2006 - Ongoing

School based health centers

Development of collaborative program between FSUCOM, Gadsden County Dept of Health, Big Bend AHEC and Gadsden county schools for provision of primary care and mental health services for an elementary and middle school serving primarily rural African-American and Hispanic students. The clinics serve as interdisciplinary training sites for medical students and psychology graduate students. Proposal for funding for mental health component was approved by Big Bend AHEC.
