Sacred Heart Hospital

Dr. Robert Patterson, board-certified pediatric intensivist with the Florida State University College of Medicine Pediatric Residency Program, has been named the medical director of the Children's Hospital at Sacred Heart.

Patterson is responsible for formulating and implementing pediatric policies and protocols, overseeing resolution of pediatric physician and patient concerns, assisting in the recruitment of new physicians and clinical staff, and overseeing the quality metrics for the Children's Hospital. He also will assist in defining the regional vision for the growth of pediatric services throughout Sacred Heart Health System.

Patterson received his degree from the University of Texas Medical Branch in Galveston, and completed his internship and residency in pediatrics at All Children's Hospital, University of South Florida, in St. Petersburg. He also completed a fellowship in pediatric critical care at the Children's Hospital of Colorado, University of Colorado Health Sciences Center, in Denver.

Dr. Sidney Stuart, a board-certified obstetrician/gynecologist with The Women's Group PA, has been named the medical director of women's services at Sacred Heart Hospital.

Stuart is responsible for formulating and implementing OB/GYN policies and protocols, overseeing resolution of OB/GYN physician and patient concerns, assisting in the recruitment of new physicians and clinical staff, and overseeing the quality of care for women's services.
Stuart received his degree from the Louisiana State University Medical School and completed his residency in obstetrics and gynecology at Oschner Foundation Hospital in New Orleans. He is a fellow in the American College of Obstetrics and Gynecology and a clinical assistant professor in the Department of Clinical Sciences at the Florida State University College of Medicine.

In addition, Dr. Charles Mayes Jr. has joined the cardiology practice at Sacred Heart Medical Group.

Mayes is board-certified in cardiovascular disease and interventional cardiology, and has been practicing in Lafayette, La., for the past five years. He has more than 10 years of experience in performing catheter-based procedures to treat cardiovascular diseases. He also has advanced training and experience in interventional procedures to restore blood flow to the coronary and peripheral arteries.

Mayes received his degrees at Vanderbilt University and Duke University. He performed his residency training in internal medicine at the University of Texas at Southwestern in Dallas where he served as chief resident. He completed a fellowship training in interventional cardiology and congenital heart diseases at Duke University Medical Center in Durham.
