**Physician Orders for Life-Sustaining Treatment (POLST)-Florida**

Follow these orders until orders are reviewed. These medical orders are based on the patient’s current medical condition and preferences. Any section not completed does not invalidate the form and implies full treatment for that section. With significant change of condition new orders may need to be written.

**A**

**CARDIOPULMONARY RESUSCITATION (CPR):** Patient is unresponsive, pulseless, and not breathing.

- [ ] Attempt Resuscitation/CPR
- [ ] Do Not Attempt Resuscitation/DNR

When not in cardiopulmonary arrest, follow orders in **B** and **C**.

**B**

**MEDICAL INTERVENTIONS:** If patient has pulse and is breathing.

- [ ] Full Treatment – goal is to prolong life by all medically effective means.
  - Care Plan: Full treatment including life support measures in the intensive care unit.

- [ ] Limited Medical Interventions – goal is to treat medical conditions but avoid burdensome measures
  - In addition to care described in Comfort Measures Only, use medical treatment, antibiotics, IV fluids and cardiac monitor as indicated. No intubation, advanced airway interventions, or mechanical ventilation. May consider less invasive airway support (e.g., CPAP, BiPAP). Transfer to hospital if indicated. Generally avoid the intensive care unit.
  - Care Plan: Provide basic medical treatments.

- [ ] Comfort Measures Only (Allow Natural Death) – goal is to maximize comfort and avoid suffering
  - Relieve pain and suffering through the use of any medication by any route, positioning, wound care and other measures. Use oxygen, suction and manual treatment of airway obstruction as needed for comfort. Patient prefers no transfer to hospital for life-sustaining treatments. Transfer if comfort needs cannot be met in current location. Consider hospice or palliative care referral if appropriate.
  - Care Plan: Maximize comfort through symptom management.

**Additional Orders:** ______________________________________

**C**

**ARTIFICIALLY ADMINISTERED NUTRITION:** Offer food by mouth if feasible.

- [ ] Long-term artificial nutrition by tube.
  - Additional Instructions: ____________________________

- [ ] Defined trial period of artificial nutrition by tube.
  - ________________________________

- [ ] No artificial nutrition by tube.
  - ________________________________

**D**

**HOSPICE or PALLIATIVE CARE (complete if applicable) - consider referral as appropriate**

- [ ] Patient/Resident Currently enrolled in Hospice Care
  - Contact: __________________________

- [ ] Patient/Resident Currently enrolled in Palliative Care
  - Contact: __________________________

- [ ] Not indicated or refused

**SIGNATURES**

- Print Physician Name __________________________
- Physician Signature (mandatory) __________________________
- Date __________________________

- Print Patient/Resident or Surrogate/Proxy Name __________________________
- Relationship (write ‘self’ if patient) __________________________

- Patient or Surrogate Signature (mandatory) __________________________
- Date __________________________

**SEND FORM WITH PATIENT WHENEVER TRANFERRED OR DISCHARGED**

Use of original form is strongly encouraged. Photocopies and facsimiles of completed POLST are legal and valid.
Directions for Health Care Professionals

Completing POLST
- Must be completed by a health care professional based on medical indications, a discussion of treatment benefits and burdens, and elicitation of patient preferences.
- POLST must be signed by a MD/DO to be valid. Verbal orders are acceptable with follow-up signature by physician in accordance with facility/community policy.
- POLST must be signed by patient/resident or healthcare surrogate/proxy to be valid.

Using POLST
- Any section of POLST not completed implies full treatment for that section.
- Use of original form is strongly encouraged. Photocopies and FAXes of signed POLST forms are legal and valid.
- A semi-automatic external defibrillator (AED) should not be used on a person who has chosen “Do Not Attempt Resuscitation.”
- Oral fluids and nutrition must always be offered if medically feasible.
- When comfort cannot be achieved in the current setting, the person, including someone with “comfort measures only,” should be transferred to a setting able to provide comfort, such as a hospice unit.
- A person who chooses either “comfort measures only” or “limited additional interventions” should not be entered into a Level I trauma system.
- An IV medication to enhance comfort may be appropriate for a person who has chosen “Comfort Measures Only.”
- A person who desires IV fluids should indicate “Limited Interventions” or “Full Treatment.”
- A person with capacity or the surrogate/proxy (if patient lacks capacity) can revoke the POLST at any time and request alternative treatment.

Reviewing POLST
This POLST should be reviewed periodically and a new POLST completed if necessary when:
- The person is transferred from one care setting or care level to another, or
- There is a substantial change in the person’s health status, or
- The person’s treatment preferences change.

To void this form, draw line through sections A through D on page 1 and write “VOID” in large letters.
