

Boomer Academy workshop fall series and computer classes

7:25 a.m. EDT September 17, 2015

Computer and Technology

Interested in taking computer classes? Please fill out an application located at TSC reception to express your skill level. If you have your own laptop, you are welcome to bring it to class.

Reserve your space now. Contact Kristy.Carter@talgov.com or call 891-4008. Note: If there are multiple dates listed that is how many times the class is meeting.

Mentor Up

Wed., Sept. 23 & Oct. 28

4:30 – 5:30 p.m. or 5:30 – 6:30 pm

Are you taking full advantage of your cell phone, tablet, e-reader or laptop? Would you like to learn about Skype, Facebook, and other types of social media? Join AARP and Leon High students in this free session. Registration is required; space is limited. Please call Leslie Spencer at 850-577-5165 to sign up or for more information. Hosted at the Tallahassee Senior Center.

Microsoft Word - Basic

Tue., Wed. & Thur., Sept. 22, 23, 24, 29, 30 & Oct. 1

5:30 – 7:30 pm

Learn the basics of Microsoft Word in six sessions. Please bring a flash drive. \$12 (50+) or \$18 others) for the entire course. Advance registration and payment required 850-891-4008. Space is limited.

Microsoft Excel - Basic

Tue., Wed. and Thur., October 20, 21, 22, 27, 28 & 29

5:30 – 7:30 pm

Learn the basics of Microsoft Excel in six sessions. Please bring a flash drive. \$12 (50+) or \$18 (non-Seniors) for the entire course. Preregistration and payment required 850-891-4008 and space is limited.

Digital Photography Classes

Please bring your camera with a charged battery and your camera manual to class. \$5 (50+), \$7 others. To register, please contact Kristy at 891-4008. Additional information can be found at: <http://www.maf1.com/dcc/>.

Basic Digital Photography

Wed., Sept. 30, Oct. 21, & Dec. 9

6:30 – 9 p.m.

This class is for beginners. Learn basic functions of your digital camera: on/off, battery and memory card, using scene modes, about flash and uploading images to your computer. This class also includes the topics of ISO, white balance, exposure value, camera metering and more.

Advance Digital-DSLR-Travel Photography

Wed., Oct. 7 & 28

6:30 – 9 p.m.

Review of ISO, white balance, exposure value, color temperature, program - aperture - shutter modes, metering such as weighted or spot and other advanced functions. Lighting techniques, image arrangement, time-of-day photography tripod management and many other topics discussed.

Tricks and techniques include shooting from a speeding car, catching a rainbow, shooting in snow and taking photos in dark areas (such as churches). Class includes previous content from the Digital Single Lens Reflex (DSLR) class and Travel Photography.

Paint Shop Pro Fundamentals

Wed., Nov. 4

6:30 – 9 p.m.

Please bring your laptop.

The editing software, Paint Shop Pro, also known as PSP, should be loaded on your device. It is desirable to have one of the PSP versions X5 through X7. Basic software such as Picasa does not qualify for this class but users of Photo Elements may find this class very useful. PSP is easy to use with an extremely short learning curve. If you have Photoshop software and want to learn some of the techniques covered, you will benefit from this session because the editing concepts are virtually identical in Photoshop and PSP.

Travel Photography

Wed., Dec. 2

6:30 – 9 p.m.

Class reviews different situations – tricks and techniques: Techniques such as shooting from a speeding car, catching a rainbow, shooting in snow, and capturing photos in dark areas such as churches. This class now includes previous content from the Digital Single Lens Reflex (DSLR) class and Travel Photography.

Of special note for Computer & Technology classes: If there are multiple class dates listed, that is how many times the class meets – sorry, you cannot select a single date. The following six-week courses are \$12 (50+), \$18 others. Register with Kristy.Carter@talgov.com or call 891-4008. Reserve now, space limit.
