One of the nation's most **COMPETITIVE MEDICAL SCHOOLS**

is proud to call all
of **FLORIDA**
its **HOME**

The Florida State University College of Medicine is among the nation's most innovative medical schools. Recently ranked by *U.S. News & World Report* as the second most competitive medical school in the country for admissions, the FSU College of Medicine employs a unique educational model, which includes six regional campuses around the state of Florida. The college works statewide to address the pressing health-care needs of Florida's citizens, especially the elder, rural and minority underserved populations, and to develop exemplary physicians who focus on the patient, not the disease.

One of the many ways *Raise the Torch: The Campaign for Florida State* is transforming not just our university, but the entire state of Florida.
