

HIV/AIDS Awareness Day aims to educate

Special to Tallahassee Democrat
USA TODAY NETWORK - FLORIDA

The Florida State University College of Medicine Student National Medical Association Chapter will be hosting its 4th annual HIV/AIDS Awareness Day from 11 a.m.-1 p.m. Thursday, Nov. 29, at the FSU College of Medicine (1115 W Call St.).

HIV/AIDS Awareness Day aims to educate the Tallahassee community about HIV/AIDS and other STDs as well as promote health screening, maintenance and follow up. Community, Undergraduate and College of Medicine organizations will have booths set up at the College of Medicine with information about HIV/AIDS, how it affects specific populations, available community-wide resources and much more.

There will be mobile STD testing available from 11 a.m.-4 p.m. provided by the Neighborhood Medical Center and giveaways.

The community can participate by coming by to get tested and/or get educated! SNMA will be finishing the day with a candlelight vigil located at the eternal flame on the campus of Florida A&M University from 5:45-6:30 p.m. to commemorate the plight of those fighting HIV/AIDS.

Students share in a moment of silence during a previous Florida State University College of Medicine's 2nd Annual HIV and AIDS Awareness Candlelight Vigil. This year, there will be a candlelight vigil at 5:45 p.m. Thursday at the Eternal Flame at FAMU. DEMOCRAT FILES
