OB-GYN Associates at The Veranda  
*Release: 07/19/10*  
 Albany, Georgia

OB-GYN ASSOCIATES  
at THE VERANDA

### The Veranda Welcomes a New Physician to its OB-GYN Practice

OB-GYN Associates at The Veranda announces the addition of a new physician in August of 2010. Dr. Paul Payne will be joining the prestigious practice bringing his expertise in both obstetrics and gynecology to The Veranda.

"We are so pleased to welcome Dr. Payne to our team" , said Dr. William George, OB-GYN Associates. "He brings with him superb knowledge, an energetic personality and a kind demeanor. We're certain he will be a great fit with our patients as he already is with our staff."

Payne received his undergraduate degree from The University of Florida in Animal Science in 1994. He then went on to earn his medical degree from Florida State University College of Medicine in 2006. While at school he founded the Florida State University Medical Student Chapter of the Florida Rural Health Association, and served as the president from August of 2002 until May of 2004. He was also the executive-at-large on the Medical Student College Council from June of 2002 until April of 2003, and served as the class vice-president from 2003 until 2006. In 2006 he was the recipient of the FSU-COM Torch Award by the Class of 2006, and he received the National Rural Health Association Student Interest Group John Snow Inc. Rural Health Leadership award in 2004. Additionally, Payne was selected as the Second Year Outstanding Teaching Resident in 2008. In 2010 he received the Award of Excellence for Best Resident Research Project and the Resident Award for Minimally Invasive Laparoscopic Gynecology.

Payne completed his residency in the obstetrics and gynecology division at Florida State University College of Medicine in July of 2010. Payne looks forward to joining OB-GYN Associates at The Veranda and to making Albany home for his family. He will begin accepting new gynecology and obstetrics patients in August.
