

# ALEKS MATH PLACEMENT TEST

## Directions for FSU Students

February 2022 to January 2023

**WHO:** Required for first-time-in-college students before registration for first math class at FSU if you will take: **MAC1140, MAC1114, MAC2233 or MAC2311**. Strongly recommended for MAC1105 – especially for STEM majors with no college math credit so you have the opportunity to advance beyond MAC1105!

**COST:** \$25 [includes initial test, 3 retakes and access to the learning modules]

**ACCESS:** [Click here](#) for the FSU website with link to ALEKS

### INSTRUCTIONS:

- After clicking on the link above, you must sign in with your FSUID and password to access the test. You must agree to terms of use for ALEKS.
- Select “FSU ALEKS, Sum/Fall22-Sp23, AY 2022” by clicking on the circle with 3 dots and choose “Apply access.” For first-time access, select “No, I need to purchase an access code.”

The image shows two screenshots from the ALEKS website. The left screenshot shows a class selection menu for "FSU ALEKS, Sum/Fall22-Sp23, AY 2022 / Higher Education Math Placement". A dropdown menu is open with options "Apply access" and "Hide class". Below the menu, a message states "No Access Applied" with a warning icon, and "Latest Placement Result: Not assessed yet". The right screenshot shows the "Apply Access" page. It asks "Do you have an access code?" and has two radio button options: "No, I need to purchase an access code." (which is selected) and "Yes, I have an access code.". Below the second option is an "Access Code:" field with four input boxes and a question mark icon.

If you don't see the box on the left, click “Add Class” and then enter this 10-character class code: TGV34-ARWWA (then proceed to apply access).
