

# COLLEGE OF MEDICINE, FLORIDA STATE UNIVERSITY

B.S. Degree in **Interdisciplinary Medical Sciences**

**Clinical Professions Major Course Requirements**

The Florida State University College of Medicine's goal is to educate and develop exemplary physicians who practice patient-centered health care, discover and advance knowledge, and are responsive to community needs, especially through service to elder, rural, minority, and underserved populations. The IMS degree program expands and develops the solid science foundation needed to apply to medical school, dental school, physician assistant programs, and a number of other healthcare professions that require post baccalaureate training.

The Clinical Professions major allows students to benefit from choosing a rigorous science core that complements their experiential service learning seminars and capstone course experience.

This major provides a great deal of flexibility in choosing upper division electives that match student interests.
