Residency	Florida State University College of Medicine Family Medicine Residency Program at Lee Health, Fort Myers, FL
Fellowship	Florida State University College of Medicine Global Health Fellowship at Lee Health, Fort Myers, FL
Title	Family Physician, Core Faculty

## PERSONAL NOTE

When I was looking for residency programs I chose this program because it was a unique unopposed program with all the resources of Florida State University and an incredible faculty who were genuinely excited to train residents. After my 3 years here I truly felt that this residency program gave me an excellent foundation and prepared me for my Fellowship in Global Health where I spent time in Honduras, Nicaragua and Papua New Guinea working at hospitals and clinics. I had no idea when I first came here that I would come to love the program and Fort Myers so much that I would call this my home and join the faculty myself, but I couldn't imagine somewhere else I'd rather be.

My wife Kelsey and I are the proud parents to our two sons and love living in Fort Myers. There are lots of young families and things to do all year round. We enjoy volunteering at our church and exploring all the things that Fort Myers and the surrounding area has to offer.
