

Clerkship Competency	Assessment						FSU COM Educational Program Objectives										Entrustable Professional Activity														
	NBME	Observation by faculty	Observation by clerkship director	Online module	Oral presentation	Patient documentation	Project	Patient Care	Knowledge for Practice	Practice-Based Learning & Improvement	Interpersonal Communication Skills	Professionalism	Systems-Based Practice	Interprofessional Collaboration	Personal & Professional Development	Mission	Gather a history and perform a physical examination	Prioritize a differential diagnosis following a clinical encounter	Recommend and interpret common diagnostic and screening test	Enter and discuss orders and prescriptions	Document a clinical encounter in the patient record	Provide an oral presentation of a clinical encounter	Form clinical questions and retrieve evidence to advance patient care	Give or receive a patient handover to transition care responsibility	Collaborate as a member of an interprofessional team	Recognize a patient requiring urgent or emergent care and initiate evaluation and management	Obtain informed consent for tests and/or procedures	Perform general procedures of a physician	Identify system failures and contribute to a culture of safety and improvement		
Family Medicine																															
Recognize one's personal abilities and limitations, knowing when to request assistance.		x	x						3.1						8.1									x		x					
Display professionalism, high ethical standards, and integrity in relationships in all aspects of medical practice, especially with respect to confidentiality, informed consent, and justice.		x	x								5.2	6.4			8.5									x		x					
Utilize basic ethical principles including autonomy, beneficence non- malfesance and justice in the care of each patient.		x	x								5.3,	5.6												x		x					
Practice self-evaluation and reflection concerning cultural, moral and ethical issues encountered in the care of patients and the practice of medicine, identifying biases, perceived differences between practitioners and patients, and employing a		x	x								5.1,	5.2,	5.5											x		x					
Recognize and demonstrate the ability to address the unique needs of patients from underserved environments.		x	x			x									9.1,	9.2								x							x
Apply the principles and methods of Evidence-Based Medicine to acquire, appraise, and assimilate new clinical information to improve patient care.		x	x			x	1.6	2.3	3.1															x							x
Demonstrate knowledge of learning styles, preferences or strategies to facilitate lifelong learning.		x	x			x			3.2,	3.3														x							x
Demonstrate knowledge of the occurrence of medical errors/adverse events throughout the continuum of care or demonstrate appreciation for the culture of patient safety.		x	x			x						6.6												x							x
Demonstrate the ability to work effectively as a member of a health care team.		x	x			x							7.1,	7.4												x					x
Demonstrate respect for the roles of other healthcare providers and of the need to collaborate with others in caring for individual patients and communities.		x	x			x							7.1												x						x
Advocate for and assist patients in coordinating care and in dealing with system complexities.		x	x			x						6.4														x					x
Recognize that errors occur in providing health care and how providers and system flaws contribute to hazards in care; seeks to improve systems and prevent future errors.		x	x			x						6.3,	6.6													x					x

Clerkship Competency	Assessment						FSU COM Educational Program Objectives										Entrustable Professional Activity														
	NBME	Observation by faculty	Observation by clerkship director	Online module	Oral presentation	Patient documentation	Project	Patient Care	Knowledge for Practice	Practice-Based Learning & Improvement	Interpersonal Communication Skills	Professionalism	Systems-Based Practice	Interprofessional Collaboration	Personal & Professional Development	Mission	Gather a history and perform a physical examination	Prioritize a differential diagnosis following a clinical encounter	Recommend and interpret common diagnostic and screening test	Enter and discuss orders and prescriptions	Document a clinical encounter in the patient record	Provide an oral presentation of a clinical encounter	Form clinical questions and retrieve evidence to advance patient care	Give or receive a patient handover to transition care responsibility	Collaborate as a member of an interprofessional team	Recognize a patient requiring urgent or emergent care and initiate evaluation and management	Obtain informed consent for tests and/or procedures	Perform general procedures of a physician	Identify system failures and contribute to a culture of safety and improvement		
Internal Medicine																															
Demonstrate the ability to conduct a focused history appropriate to the patient's chief complaint and history of present illness		x	x				1.3									x															
Demonstrate the ability to conduct a focused physical exam using appropriate techniques		x	x				1.3									x															
Demonstrate the ability to diagnose, evaluate and construct a treatment plan for common illness in internal medicine	x	x	x	x			1.3, 1.4, 1.6, 1.7	2.3, 2.4, 2.5									x												x		
Demonstrate the ability to perform appropriate health maintenance	x	x	x	x			1.3										x												x		
Perform and interpret ECGs	x	x	x	x			1.2										x												x		
Interpret chest x-ray	x	x	x	x			1.2										x												x		
Demonstrate the ability to convey appropriate information orally to other health care personnel in a concise manner		x	x		x					4.2, 4.3									x	x	x										
Demonstrate the ability to document written admission history and physical exam, progress notes and orders		x	x		x					4.5									x	x	x										
Demonstrate facility in the application of medical informatics technology and critical appraisal of the medical literature in making diagnostic and management decisions in internal medicine		x	x					3.4, 3.6, 3.7, 3.9, 3.10															x								
Displays and demonstrates professionalism in all interactions with patients, colleagues and staff		x	x								5.1, 5.2, 5.3, 5.4, 5.5														x

Psychiatry																															
The student will consistently demonstrate professionalism and objectivity in clinical settings, at staff meetings and in written documentation in the following areas: <i>See list below</i>																															
Maintain confidentiality of psychiatric information (regardless of setting).	x	x									5.3																				
Understand and discuss ethical issues in psychiatry.	x	x									5.6																				
Involuntary hospitalization, psychiatric assessments, and indications for treatment.	x	x									5.1, 5.2, 5.3, 5.4, 5.5, 5.6																				
Duty to warn.	x	x									5.4																				
Reporting abuse.	x	x									5.6																				
Boundary limits and violations in the doctor-patient relationship.	x	x									5.6																				
Recognizing the need for referrals to other medical and mental health specialists.	x	x								4.5	5.1, 5.5																				
Development of aftercare plans and systemic and community obstacle.	x	x				1.8			4.1, 4.2, 4.3	5.1, 5.3	6.5	7.1																			
Biases against the mentally ill and referral for patient and family advocacy.	x	x								5.5																					
Financial and institutional barriers to care.	x	x								5.5	6.3																				
Identify and incorporate relevant referrals for specific demographic groups to appropriate agencies and organizations.	x	x								5.1, 5.5	6.2																				

Clerkship Competency	Assessment						FSU COM Educational Program Objectives										Entrustable Professional Activity

Demonstrate familiarity with "core surgical knowledge", as described in the Syllabus, including commonly encountered problems in Orthopedics, Urology Otolaryngology, Thoracic/Cardiovascular, and Neurosurgery	x	x					1.9	2.1																							
Conduct a focused medical history, targeted physical examination, and create a meaningful differential diagnosis for surgical conditions	x	x					1.2, 1.3, 1.6	2.1, 2.3									x	x													
Participate in the continuity of patient management through all phases of surgical care including pre-operative, peri-operative, intra-operative, post-operative, and post-discharge	x	x					1.7	2	3	4							x	x	x												
Recognize an acute surgical abdomen, and identify its probable cause	x	x					1.1	2.1										x								x					
Exhibit the capability to provide concise and logical patient presentations (a, b, d)	x	x					1	2		4											x										
Develop familiarity with suturing wounds, bladder catheterization, and airway management (a)	x	x					1.1																							x	
Demonstrate proficiency in: scrubbing and maintaining sterile technique, dressing clean and contaminated wounds, wound closure with sutures/staples, drain management, wound debridement, and operative assistance. (a, b)	x	x					1.1	2.2																						x	
Appreciate ethical, cultural, and public health issues in Surgery, including traditionally underserved populations, and oversight of surgical practice at the local, state, and Federal levels (a, c, d, e, and f)	x	x					1.1		3.9	4.1	5.5		7.1																		
Exhibit facility in applying informatics to critical appraisal of the surgical literature, and to making surgical diagnostic and therapeutic decisions. (a, b, c, e)	x	x					1.6	2.3	3.6		5							x					x								
Be familiar with common anesthetic agents, their administration, recovery from their usage, and develop facility with airway management. (a, b,)	x	x					1	2																						x	
Effectively and respectfully communicate with colleagues, staff, patients, and families, emphasizing patient centered care (a, d, e, and f)	x	x					1.1, 1.5				4	5.1	6												x

Doctoring 3																															
Demonstrate the clinical thinking skills needed to diagnose and develop a treatment plan for commonly occurring diagnoses and presentations.		x	x					2.1									x	x	x												
Demonstrate the ability to apply the biopsychosocial model and patient-centered clinical method to the understanding of patient presentations.		x	x					2.5									x														
Describe and apply the principles of geriatrics in patient care.		x	x					2.2, 2.3, 2.5							9.2	x		x	x												
Demonstrate advanced communication skills with challenging patients in difficult situations.		x	x							4.1, 4.6, 4.7		5.1, 5.2, 5.3, 5.6													x						
Demonstrate an understanding of the manner in which people of diverse cultures and belief systems perceive health and health care in order to respond to various symptoms, diseases, and treatments.		x	x					2.5		4.1	5.5		7.3		9.2										x						
Demonstrate knowledge of systems of care as they relate to continuous quality improvement.		x	x					3.4					6.5																		x
Demonstrate an understanding of common ethical and legal issues related to patient care. (1, 4, 5)		x	x							4.6	5.6																			x	
Demonstrate facility in the application of medical informatics technology, decision support resources and principals of evidence-based medicine in making diagnostic and management decisions.		x	x					3.9									x						x								
Demonstrate the ability to do concise, organized oral case presentations.		x	x			x				4.2										x											
Demonstrate the ability to describe and/or perform physical examinations appropriate to the case presentation.		x	x					2.1								x															
Demonstrate lifelong learning by participating in (and providing documentation for) 4 hours (live) of Category 1 Continuing Medical Education (CME) credits (AMA approved).		x	x								5.4
