Doctoral Training	University of Wisconsin-Milwaukee, Milwaukee WI
Fellowship	Michigan State University, Consortium for Advanced Psychology Training (CAPT), Flint MI
Title	Director of Behavioral Medicine Clinical Health Psychologist

## PERSONAL NOTE

It has been a wonderful journey in my career to be part of creating the FSU Family Medicine Residency at Lee Health from the beginning. Our program is dedicated to our residents and holds training as our priority. Throughout my training and career I have been committed to working with underserved communities, providing culturally appropriate/responsive healthcare, addressing health disparities/inequities, and multicultural psychology. Working with our residents in developing these perspectives into patient care has been the most exciting experience.

While always a New Yorker at heart, I love the Florida weather and lifestyle. I enjoy spending time with my family and friends, traveling, dancing, working out, and supporting my NY sports team; when not going to the gym.
