### No Joke! Laughter as Medicine

2020 has yet to be a year filled with much humor. The changes to our daily life, not to mention the practice of medicine, have simply been overwhelming. Gone are the family gatherings, hang outs with groups of friends, evenings with shows and movies, large group meetings, conferences, handshakes and hugs. With so many of our outlets for comfort, enjoyment and health gone or significantly changed, where else can we look? Perhaps a dose of laughter is what we need!
