

Residency Review

ADVANCING KNOWLEDGE. TRANSFORMING LIVES.

GRADUATE MEDICAL
EDUCATION

General Surgery Residency at Tallahassee Memorial HealthCare

The residency's two PGY-5 chiefs matched in fellowship programs for the 2021-2022 academic year. **Dr. Justin Lee** will be completing a bariatric surgery fellowship at Advent Health in Tampa; and, **Dr. Aaron Hayson** will be completing a vascular surgery fellowship at Ochsner Health Center in New Orleans, Louisiana. Congratulations to both of these resident physicians.

Dermatology Residency at Dermatology Associates of Tallahassee

DRAPS Student Suture Clinic

PGY-4 Co-Chief Resident **Dr. Shalini Thareja** recently taught the Dermatology Research and Practice Scholars various techniques for suturing. The students then got to practice these techniques on pigs feet.

DRAPS participants are students who have completed their undergraduate degree, and will be applying for medical school or a physician assistant program in the near future.

Internal Medicine Residency at Tallahassee Memorial HealthCare

New Baby Boy

PGY-3 Resident **Dr. Guerdine Alcious** and Guy Claude welcomed a beautiful, bouncing baby boy on 9.9.20. Dominic G. Gracien was born at 11:26 p.m. weighing 5 pounds and 1 ounce. Congratulations!

Global Health Fellowship at Lee Health (Fort Myers)

Virtual Recruitment

Fellows **Drs. Alice Shallcross** (top) and **Bradley Green** (bottom), Program Director **Dr. Alfred Gitu** (center), and new faculty (former fellow) **Dr. Hailon Wong** participated in a virtual fellowship fair during the Global Health Summit. They met many prospective candidates and also learned invaluable lessons from other institutions around the country.

Special thanks to Drs. Green and Wong who participated as they could in the midst of providing patient care, and to all for eloquently articulating the unique aspects of the program..

Graduate Medical Education Division

Program Completion Portraits

Annually, Graduate Medical Education Division staff have prepared a framed portrait of the photos and names of residents and fellows who have completed their training in that calendar year. In 2020, there were 34 graduates. The portraits are hung just outside of the GME office.

Special thanks this year to Jessee Graham and Mark Bauer at the college.

GME Wellness Sub-Committee Newsbyte

Let There be Light

Seasonal affective disorder is a well-known side effect of living in the colder, overcast North. The closer to the North Pole one gets, the longer the dreary days last. As physicians we think about how the weather impacts our mood; however our Northern counterparts may recommend patients buy UV lamps and write prescriptions for antidepressants!
