#### Bio

<b>Hometown</b>	Jupiter, FL
<b>College</b>	University of Florida, Gainesville, FL
<b>Pharmacy School</b>	University of Florida College of Pharmacy, Gainesville, FL
<b>Fellowship</b>	University of Florida Family Medicine Pharmacy Fellowship

#### Personal Note

I was born in Virginia and raised in Palm Beach County Florida. I attended the University of Florida for my undergraduate, pharmacy school, and fellowship training. I was drawn to train in primary care for the lasting relationships made with patients and its ability to impact communities. I am an advocate for effective and affordable pharmacotherapy which drives my interest in medication reviews and EHR/claims data research.

In my free time I flex my creative energies with my brother and make video games. When I need some fresh air I enjoy exercise, hikes or other outdoor activities in the Florida swamp.
