DEAN'S MESSAGE

"The Tallahassee Regional Campus continues to function at a high level in achieving the FSU College of Medicine's mission to educate and develop exemplary physicians who practice patient-centered medicine and are active in serving their communities. These outstanding results are being achieved through the partnerships of mutual discovery that exist between our bright, dedicated medical students and the many excellent community physicians who are investing of themselves, alongside the College of Medicine, in medical education. In addition, many institutional and community partners have opened their doors to provide invaluable educational and service experiences for our medical students. Together, we are exceeding expectations and providing an innovative model of medical education for the country."
