

Graduate Program in Biomedical Sciences Program of Studies

Graduate Students: Use this form to report the composition of your Program of Studies.

Faculty Members: Your signature on this form indicates your approval of the student's Program of Studies.

The Program of Studies is intended to indicate the formal coursework that the student and Supervisory Committee agree are necessary for achieving a level of expertise in the Biomedical Sciences and the chosen subject area of the dissertation research expected of a Ph.D. graduate. Changes in the Program of Studies are permitted with approval of the Supervisory Committee. **Report changes of the Program of Studies on a new form marked "REVISED".**

Program of Studies

(Do not list rotation, DIS, dissertation, seminar or similar courses)

Student Name: _____

Date Submitted: _____

Course No.	Course Title	Semester Taken or Intended	Grade
PCB 5595	Advanced Molecular Biology		
STA 5172	Biostatistics		
IHS 5515	Ethics and Professional Integrity in Research		
PCB 5137	Advanced Cell Biology		
BMS 5525	Bioregulation		
BMS 5186C	Research Techniques in Biomedical Sciences		
Electives
