

Jabber Video: Configuration

(Windows & MAC OS X)

After you download and install the Jabber Video client, configure it as shown in the steps below.

1. When prompted to “Sign in”, click on the setting menu icon (), and select **Sign-in Settings**.

Verify your Sign-In Settings match what is in the image, including the two check boxes. If they match, continue on to step 3, otherwise configure the settings as shown in step 2.

2. If the Sign-in Settings we're not configured for you automatically, do so as noted below:
 - a. **Uncheck** “Start Jabber Video when I log on to my computer”
 - b. **Uncheck** “Sign in automatically”
 - c. Servers:
 - i. Internal Server **vcs.med.ad.fsu.edu**
 - ii. External Server **vcsgw.med.fsu.edu**
 - iii. SIP Domain: **med.fsu.edu**

2. Once you have configured the Sign-in Settings, you can then sign in using your provided username and password. Contact FSUCOM Help Desk if you do not know your account information.

IMPORTANT: Jabber Video account information is not linked to your FSUCOM account; it uses a separate account managed by your video conference administrator.

NOTICE: It will take typically longer time (sometimes up to 20 seconds or more) when signing into Jabber Video from outside the FSUCOM network.
