

Funding Opportunities & Announcements

ALERTS

NIH Standard Due Dates

Cycle 2 will begin on **May 25, 2018** and standard due dates for common mechanisms are as follows:

- R01 (new) - June 5
- K Series (new) - June 12
- R03, R21, R33, R34, R36 (new) - June 16
- R15 (all) - June 26
- R01 (renewals, resubmissions, revisions) - July 5
- K Series (renewals, resubmissions, revisions) - July 12
- R03, R21, R33, R34, R36 (renewals, resubmissions, revisions) - July 17
- F Series (all) - August 8

Help us help you! The sooner you let us know of your intent to submit a proposal for extramural funding (30 days is recommended), the sooner we can help you navigate the paths to a successful submission. All proposal elements are due to our office ten (10) business days in advance so we can secure all COM approvals and help you assemble the complete proposal by the University's three (3) business days deadline for institutional approval. [More Information.](#)

HHS Proposes a Further Delay to the Common Rule

The Department of Health and Human Services (HHS) and 16 other federal departments and agencies issued a [Notice of Proposed Rulemaking \(NPRM\)](#) to delay the general compliance date for the revised Federal Policy for the Protection of Human Subjects ("the Common Rule") for an additional six months, from **July 19, 2018**, to **January 21, 2019**. As discussed during the 2018 GRAND Spring Conference, the notice was issued to "provide additional time to regulated entities for the preparations necessary to implement the 2018 requirements." The AAMC along with Association of American Universities (AAU) and the Association of Public and Land-grant Universities (APLU) had requested a delay in a [March 19 letter](#). The NPRM [seeks comment](#) by **May 21** on the new proposed compliance date and whether to allow institutions to implement three "burden reducing" provisions included in the revised rule prior to the 2019 general compliance date. Read more at AAMC [Washington Highlights](#), and additional updates and resources are available at the AAMC [Common Rule page](#).

FSU Procurement Services Announcement

Florida State University, in coordination with Sponsored Research, will be implementing new federal regulations impacting procurement of goods and services on **July 1, 2018** (start of fiscal year 2019). The regulations, known as Uniform Guidance, are issued by the U.S. Office of Management and Budget (OMB) and there are a number of reforms and changes for institutions that receive federal grant funding. The primary impact will be the added due diligence required for small purchases in excess of the micro-purchase threshold (\$10K), and especially for Sole Source purchases, which will require a more compliant screening and sourcing process. In addition, institutions will be required to have internal policies and procedures that define conflicts of interest for staff engaging in procurement decisions and organizational conflicts of interest. To view more information on these important changes, federal guidance updates, along with upcoming information on informational sessions, [click here](#).

GRANTSMANSHIP

Letters of Intent Submission Process Requirements

Sponsored Research Administration recently sent out an announcement regarding guidance on letters of intent, concept papers, and white papers. Please note that the College of Medicine has separate internal requirements for these submittals. In accordance with FSU CoM Research Policy, the Office of Research Administration should be notified of all potential proposals (including letters of intent) so that we can help COM researchers navigate the application process and ensure appropriate approvals are secured. Please send notice of any sponsored funding related submittal to research@med.fsu.edu at least 10 business days in advance of the deadline. Additional guidelines may be found [here](#).

FEATURED FUNDING OPPORTUNITIES

Congressionally Directed Medical Research Programs Funding for Fiscal Year 2018

The Fiscal Year 2018 Department of Defense Appropriations Act provides research funding for peer reviewed programs managed by the Department of Defense office of Congressionally Directed Medical Research Programs (CDMRP). Comprehensive Program Announcements will be released throughout 2018. The Program Announcements include detailed descriptions of funding mechanisms, evaluation criteria, submission requirements, and deadlines. All programs have a required Pre-Application. Each Program Announcement may be downloaded from the Grants.gov website (<http://www.grants.gov>), or the CDMRP website (<http://cdmrp.army.mil>) upon its release. Upcoming Pre-Application deadlines for some of these programs are as follows:

- Peer Reviewed Medical Research Program: Focused Program Award - **June 19, 2018**
- Peer Reviewed Cancer Research Program - **June 20, 2018**
- Peer Reviewed Medical Research Program: Clinical Trial Award - **June 25, 2018**
- Lung Cancer Research Program: Idea Development Award - **June 26, 2018**
- Lung Cancer Research Program: Investigator Initiated Translational Research Award - **June 26, 2018**
- Lung Cancer Research Program: Translational Research Partnership Award - **June 26, 2018**
- Autism Research Program - **July 5, 2018**
- Prostate Center Research Program: Idea Development Award - **July 6, 2018**
- Prostate Center Research Program: Impact Award - **July 19, 2018**
- Ovarian Cancer Research Program (OCRP) - **July 25, 2018**
- Neurofibromatosis Research Program - **July 26, 2018**
- Lung Cancer Research Program: Concept Award - **July 26, 2018**
- Prostate Center Research Program: Physician Research Award - **August 16, 2018**
- Prostate Center Research Program: Early Investigator Research Award - **August 16, 2018**
- Peer Reviewed Cancer Research Program: Career Development Award - **August 28, 2018**
- Lung Cancer Research Program: Career Development Award - **September 6, 2018**

Patient-Centered Outcomes Research Institute (PCORI) Funding Opportunities

Patient-Centered Outcomes Research Institute (PCORI) invites application for several grant opportunities. PCORI funds projects that answer patient-centered questions about health and health care. By highlighting comparisons and outcomes that matter, we expect research findings to inform decisions by patients, caregivers, clinicians, and other healthcare stakeholders. We are looking for projects that assess the benefits and harms of interventions related to preventive, diagnostic, therapeutic, or palliative care or the healthcare delivery system. In most research projects that we fund, researchers partner with patients and other stakeholders from the planning stages through the final dissemination of findings. (We recognize that in some highly technical and methodological projects, patients may not make appropriate partners.) The programs and deadlines are listed below. [More information.](#)

- Implementation of PCORI-Funded Patient-Centered Outcomes Research Results - **June 21, 2018**
- Psychosocial Interventions with Office-Based Opioid Treatment for Opioid Use Disorder -- Cycle 2 2018 - **June 24, 2018**
- Symptom Management for Patients with Advanced Illness - **June 24, 2018**
- Medication-Assisted Treatment Delivery for Pregnant Women with Substance Use Disorders - **June 24, 2018**
- Improving Methods for Conducting Patient-Centered Outcomes Research - **June 24, 2018**
- Broad PCORI Funding Announcements (Addressing Disparities, Assessment of Options, Communication and Dissemination Research, Improving Healthcare Systems) - **June 24, 2018**
- Implementation of Effective Shared Decision Making Approaches in Practice Settings - **July 24, 2018**

FEATURED FUNDING OPPORTUNITIES (Cont.)

Substance Abuse and Mental Health Services Administration (SAMHSA) Infant and Early Childhood Mental Health Grant Program

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) is accepting applications for fiscal year (FY) 2018 Infant and Early Childhood Mental Health Grant Program. Eligible children for services include children from birth to not more than 12 years of age, who are at risk for, show early signs of, or have been diagnosed with a mental illness including a serious emotional disturbance. The purpose of this program is to improve outcomes for these children by developing, maintaining, or enhancing infant and early childhood mental health promotion, intervention, and treatment services, including: (1) programs for infants and children at significant risk of developing, showing early signs of, or having been diagnosed with a mental illness, including a serious emotional disturbance (SED) and/or symptoms that may be indicative of a developing SED in children with a history of in utero exposure to substances such as opioids, stimulants or other drugs that may impact development; and (2) multigenerational therapy and other services that strengthen positive caregiving relationships. SAMHSA expects this program will increase access to a full range of infant and early childhood services and build workforce capacity for individuals serving children from birth to age 12. The application deadline is **June 29, 2018**. [More information.](#)

Children's Leukemia Research Association Research Grant Program

The Children's Leukemia Research Association is currently accepting applications for their Research Grant Program, which funds research grants for doctors who are conducting the most promising research into leukemia, in the hopes of isolating the causes and finding a cure. The association is committed to directing funds into the most promising projects, and where funding would not duplicate other funding sources. The application deadline is **June 30, 2018**. [More information.](#)

Rheumatology Research Foundation Career Development Research Awards

The Rheumatology Research Foundation invites applications for their Career Development Research Awards. The Career Development Research Awards are designed to encourage early and mid-career investigators to continue vital research into the cause, prevention, and treatment of rheumatic diseases. The application deadline for each opportunity is listed below. [More information.](#)

- Scientist Development Award - **July 2, 2018**
- Investigator Award - **July 2, 2018**
- Career Development Bridge Funding Award: K Supplement—**August 1, 2018**

American Heart Association (AHA) / Allen Initiative in Brain Health and Cognitive Impairment

The purpose of this research initiative is to discover and fund highly-promising teams of investigators who will expand the frontiers of bioscience, pursuing creative, transformative ideas with the potential to move brain health and cognitive impairment science forward. The AHA and Paul G. Allen Frontiers Group, with additional funding contributors including the Oskar Fischer Project, will grant a competitive basic science research award(s) of up to \$43 million over eight years to one or more highly inspiring and innovative integrated team(s). New frontiers of discovery in brain health, and more specifically in cognitive impairment, will be opened when expertise and novel advances are shared and leveraged among basic and clinical cerebrovascular scientists and neuroscientists. Such integrative studies have the potential to bring truly novel directions of inquiry to the current incremental progress in the field of neurodegeneration and Alzheimer's Disease research, with potentially exponential or transformational new insights. Applicants are expected to assemble an integrative team that will leverage diverse skills and perspectives to address a compelling selection or combination of compelling relevant topics. The application deadline is **July 6, 2018**. [More information.](#)

National Institute for Health Care Management (NIHCM) Foundation Investigator-Initiated Health Services Research Grants

NIHCM Foundation supports innovative investigator-initiated research with high potential to inform improvements to the U.S. health care system. Projects must advance the existing knowledge base in the areas of health care financing, delivery, management and/or policy. NIHCM Foundation is making approximately \$400,000 available and expects to fund 7 to 8 studies from this amount. The required letter of inquiry is due **July 9, 2018**. [More information.](#)

FEATURED FUNDING OPPORTUNITIES (Cont.)

Alzheimer's Drug Discovery Foundation Drug Discovery Program

The Alzheimer's Drug Discovery Foundation (ADDF) has long recognized the need to bridge the translational funding gap between early-stage drug discovery and clinical development for Alzheimer's disease, related dementias, and cognitive aging by supporting promising therapeutic approaches. The ADDF's Drug Discovery RFP focuses on supporting programs that aim to: Advance novel lead molecules to the clinical candidate selection stage (defined as compounds suitable for IND-enabling studies); or Build preclinical evidence in relevant animal models for repurposed/repositioned drugs. The average award is \$150,000-\$600,000 based on stage and scope of research. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged. The required letter of intent is due **July 13, 2018**. [More information.](#)

Burroughs Wellcome Fund Investigators in the Pathogenesis of Infectious Disease Program

The Investigators in the Pathogenesis of Infectious Disease program provides opportunities for assistant professors to bring multidisciplinary approaches to the study of human infectious diseases. The goal of the program is to provide opportunities for accomplished investigators still early in their careers to study what happens at the points where the systems of humans and potentially infectious agents connect. The program supports research that sheds light on the fundamentals that affect the outcomes of these encounters: how colonization, infection, commensalism, and other relationships play out at levels ranging from molecular interactions to systemic ones. From this year forward, microbiome-related proposals must be infectious disease focused to compete well in this program. PATH is a highly competitive award program that provides \$500,000 over a period of five years. The awards are intended to give recipients the freedom and flexibility to pursue new avenues of inquiry, stimulating higher risk research projects that hold potential for significantly advancing understanding of how infectious diseases work and how health is maintained. The application deadline is **July 16, 2018**. [More information.](#)

Robert Wood Johnson Foundation Healthy Eating Research: Building Evidence to Promote Health and Well-Being Among Children

Healthy Eating Research (HER) is a Robert Wood Johnson Foundation (RWJF) national program, which supports research on policy, systems, and environmental (PSE) strategies with strong potential to promote the health and well-being of children at a population level. Specifically, HER aims to help all children achieve optimal nutrition and a healthy weight. HER grantmaking focuses on children and adolescents from birth to 18, and their families, with a priority on lower-income and racial and ethnic minority populations that are at-risk of poor nutrition and obesity. Findings are expected to advance RWJF's efforts to ensure that all children and their families have the opportunity and resources to experience the best physical, social, and emotional health possible, promote health equity, and build a Culture of Health. Healthy Eating Research issues calls for proposals (CFPs) to solicit scientifically rigorous, solution-oriented proposals from investigators representing diverse disciplines and backgrounds. This CFP is for two types of awards aimed at providing advocates, decision-makers, and policymakers with evidence to promote the health and well-being of children through nutritious foods and beverages. The award types are Round 11, small- and large-scale grants. The two funding opportunities are described in more detail beginning on page 2 of the CFP. The application deadline is **July 18, 2018**. [More information.](#)

AmerisourceBergen Foundation Opioid Resource Grant Program

Understanding the need for expediency, and to simultaneously balance an objective of developing long-term solutions, AmerisourceBergen Foundation initial opioid resource grant offering will be dedicated to generating ideas from those who know best, tapping into bright and innovative organizations across the U.S. The AmerisourceBergen Foundation invites nonprofit, grant-funded, organizations to apply for a grant, by providing proposals that describe how the AmerisourceBergen Foundation can best contribute resources and funding to address opioid abuse and misuse. Grants will be awarded for the most innovative and constructive solutions and priority will be given to concepts addressing these key areas of focus: Safe disposal & Education around prevention. The size of grant disbursements will depend on the needs of each grantee, up to \$100,000 per grant. The required letter of intent is due **July 31, 2018**. [More information.](#)

SUBMITTING PROPOSALS FOR GRANTS AND CONTRACTS

College of Medicine, Office of Research Administration (Med-RA)

Help us help you! The sooner you let us know of your intent to submit a proposal for extramural funding, the **sooner we can help you navigate** the paths to a successful submission. Our goals are to assist you with the CoM requirements and those of FSU Sponsored Research Administration (SRA), or in the case of private funding, the FSU Research Foundation (FSURF); minimize the administrative burden; and meet sponsor guidelines in a seamless, integrated fashion.

SRA/FSURF requires "complete" proposals three (3) business days in advance of the sponsor's deadline. *Please note that generally our office works on a first in, first out basis.* If you contact us at least 30 days in advance, together we can identify, gather, or create the elements/components, then assemble the application by the SRA/FSURF deadline for institutional approval. The goal is to have all the elements needed to assemble a complete proposal for SRA/FSURF no later than 10 business days before the sponsor's deadline.

10-Day Advance Proposal Preparation Guidelines

Contact Med-RA at research@med.fsu.edu for proposal preparation assistance.
