Course Overview

Description

The Obstetrics and Gynecology Clerkship is a six-week, community-based clerkship coordinated by the regional campus Clerkship Director and supervised by the assigned Clerkship Faculty member(s). The purpose of the Obstetrics and Gynecology Clerkship is to develop a level of clinical competency in the obstetrical and gynecological care of women that is appropriate for the general education of all medical students.

Format

Students work in ambulatory, inpatient and surgical settings, experiencing the breadth of both obstetrical and gynecological care. Students will deliver basic preventive care for women in a compassionate and insightful manner, and learn to apply appropriate screening practices. Students will communicate appropriate health information to patients and will work collaboratively with healthcare team members. Under the close supervision of experienced Clerkship Faculty, students are expected to assume increasing responsibility for providing ambulatory and in-patient patient care. Students are expected to fully participate in the prenatal, labor, delivery and post partum experiences of assigned patients. Students are also expected to participate in the surgical care of patients including the preoperative evaluation, operative care and postoperative care, and to participate in the performance of obstetrical and gynecologic procedures.

Clerkship Faculty provide regular and continuous feedback to the student about his/her clinical performance. Additionally, the Clerkship Faculty complete a mid-clerkship evaluation for each student and a terminal, end-of-clerkship evaluation of the student's clinical performance and professionalism.

Course Components

Documentation Expectations

Students document all clinical encounters and procedures via the COM clinical documentation system. Data entered into the COM documentation system are reviewed and analyzed weekly by the Clerkship Directors and the Education Director. These data confirm that the student has encountered the expected numbers and types of patients, and has performed the expected clinical activities and procedures. These data also confirm the comparability of student experiences from campus to campus and from site to site.

The grid below details **minimum** numbers of patient encounters, level of performance, types of ambulatory visits, office procedures, screenings, counseling/education activities, obstetrical procedures and surgical procedures students are expected to complete and document during the OB/GYN Clerkship.

Patient Encounters	Minimum Expected
Total number	100
Minimal	<10%
Moderate	<30%
Complete	>60%
Ambulatory Care at <i>performed</i> level	
Preventive Care Visit, female	10
Prenatal Care Visit	10
Breast Exam	10
Pelvic Exam (not cervical check)	10
Collection of Genital Culture	5
Pap smear	10
Vaginitis Assessment (KOH/Wet Prep or other specimen collection)	5
Screening at <i>performed</i> level	
Depression Screening	5
Domestic Violence Screening	5
Tobacco Use	2
Incontinence Assessment	5
Osteoporosis Risk Assessment	2
Counseling/Patient Education at <i>performed</i> level	
Contraception	5
Lactation	5
Osteoporosis Prevention	2
Preconception	1
Risky Sexual Behavior	5
Smoking Cessation	5
Normal Obstetrics at <i>performed</i> level	
APGAR	5
“Coach” during second stage labor	5
Vaginal Delivery	5
SURGERY related procedures at <i>performed</i> level	
Catheterization (female urethral)	3
IV insertion & venipuncture	1
Suturing	1
SURGERY related procedures at <i>observed</i> level or <i>assisted</i> level	
C-section	1
Intubation	1
Epidural anesthesia	1
Other procedures at <i>observed</i> level	
<i>Genetic Counseling</i>	1
<i>Management Abnormal PAP: Colposcopy, LEEP, Cryosurgery, management plan without procedure</i>	1
<i>Ultrasound</i>	1

Work Expectations

Medical students are subject to the same ACGME work hour restrictions as residents: clinical activity is limited to 80 hours/week.

“Clinical activity” includes the following:

- 1) Seeing patients in the physician’s office, ambulatory clinic, emergency room or hospital;
- 2) Participating in the surgical care of patients (ambulatory or in-patient);
- 3) Participating in the evaluation and management of patients on Labor and Delivery;
- 4) Time spent on call in the hospital;
- 5) Meetings with the Clerkship Director; and,
- 6) Time spent in Doctoring 3/Longitudinal.

Students should track hours of clinical activity and report excessive hours to the Clerkship Director.

In addition to the limit of 80 hours/week of medical student clinical activity, students are not to work more than 30 continuous hours without having time off to rest/sleep. Additionally, on one out of every 7 days the student must be completely off.

Call Expectations

Participating in evening and weekend call is required in each of the first 5 weeks of the clerkship. During the last week of the clerkship, call is not required so that students may study for the NBME subject exam.

The call schedule must include at least one Friday night call and two weekend (Saturday or Sunday) 24 hour calls. The exact number of other weekend and weekday on-call days/nights required to accomplish the clerkship goals depends on the nature and volume of the Clerkship Faculty member’s practice.

If overnight call is limited to Friday and Saturday in busy obstetric practices, students may take “short call” during the week so as not to miss clinic days. Short call usually begins after daytime clinical activities and ends at 10 p.m. unless directed otherwise by the Clerkship Director.

The Clerkship Director should work with the Clerkship Faculty to create, implement and monitor student’s final call schedule. Special scheduling requests from students may be accommodated, when possible, so long as the clerkship requirements for being on call are met.

The student’s final call schedule must be submitted to the campus Clinical Coordinator by the end of the first week of the clerkship. The Clinical Coordinator will distribute the schedule to the Clerkship Director, Clerkship Faculty, clerkship students and appropriate office and hospital personnel no later than the 7th day of the rotation.

Core Content

Students are introduced to the core content of Obstetrics and Gynecology through readings in the required textbook (Beckmann), review of other available educational resources and weekly meetings and discussions with the Clerkship Director. At the end of the clerkship, the Clerkship Director documents student participation in these meetings and discussions via the Clerkship Director's Narrative.

Required Textbooks

The required textbooks for the OB/GYN Clerkship are:

Obstetrics and Gynecology for Medical Students (7th edition) by Beckmann, et al. Published April 2013. ISBN-10: 9781451144314

Case Files Obstetrics and Gynecology, Fourth Edition, by Toy, et al. Published 2013. ISBN: 978-0-07-176171-0

uWise (available online via APGO, see Bb for access information): This is a supplemental student learning tool consisting of sample quizzes. These are not required and not part of your grade, but it is strenuously recommended that you take these quizzes each week. These will be very beneficial in preparation for your SHELF exam. Please refer to Blackboard for instructions.

Reading Assignments

Reading assignments, organized by week, are outlined below. Note: There are no readings assignments for the final week of the clerkship. Students should spend time in review and preparation for the NBME subject exam in OB/GYN.

	Chapters in Beckmann	Case Files	uWise
Prior to rotation	Chapter 1: Women's Health Exam Chapter 2: Screening and Preventive Care Chapter 3: Ethics Chapter 4: Embryology, Anatomy Chapter 5: Maternal-Fetal Physiology Chapter 35: Human Sexuality Chapter 36: Sexual Assault and Domestic Violence	Case 29: Health Maintenance Case 44: Contraception Case 54: Delayed Puberty	
Week 1	Chapter 6: Preconception/Antepartum Care Chapter 7: Assessment Genetic Disorder Chapter 8: Intrapartum Care Chapter 9: Abnormal Labor Chapter 26: Contraception Chapter 27: Sterilization Chapter 28: Vulvovaginitis Chapter 34: Gynecologic Procedures Chapter 48: Uterine Fibroids	Case 1: Labor Case 40: Uterine Leiomyomata Case 37: Bacterial Vaginosis Case 28: Prenatal Care Case 27: Diabetes in Pregnancy	Units 1, 2A, 6, 7
Week 2	Chapter 10: Care Newborn Chapter 11: Post Partum Care Chapter 12: Post Partum Hemorrhage Chapter 19: Ectopic, Abortion Chapter 29: Sexually Transmitted Disease Chapter 30: Pelvic Support Defects Chapter 33: Disorders of Breast	Case 34: Urinary Incontinence Case 41, 42, 45: Abortion Case 43: Ectopic Case 6: Post Partum Hemorrhage Case 36, 35, 20: Chlamydial Cervicitis HIV Pregnancy Case 7: Serum Screening in Pregnancy	Units 2B, 2C, 3A

		Case 32, 33: Pelvic Organ Prolapse Case 46, 47, 48: Breast	
Week 3	Chapter 20: Common Endocrine Disorders Chapter 21: Gastrointestinal, Renal, and Surgical Complications Chapter 22: Cardiovascular and Respiratory Disorders Chapter 23: Hematologic and Immunologic Complications Chapter 24: Infectious Disease Chapter 25: Neurologic & Psychiatric Disorders Chapter 13: Multifetal Gestation Chapter 31: Endometriosis Chapter 32: Dysmenorrhea, Chronic Pelvic Pain Chapter 37: Reproductive Cycle Chapter 38: Puberty	Case 4: Shoulder Dystocia Case 50: Galactorrhea/Hypothyroidism Case 16: Preeclampsia/Hepatic Rupture Case 26: Breast Mastitis and Abscess Case 8: Twin Gestation Case 30: Perimenopause Cases 2, 9, 3, 18, 19, 24, 25, 38, & 39: Infections	Units 2C, 3B
Week 4	Chapter 14: Fetal Growth Chapter 15: Preterm Labor Chapter 16: Third Trimester Bleeding Chapter 39: Amenorrhea Chapter 40: Hirsutism Chapter 41: Menopause Chapter 42: Infertility	Case 10: Placenta Previa Case 11: Placenta Abruption Case 12: Placenta Accreta Case 51, 55, 49: Amenorrhea Case 17: Preterm Labor Case 52, 53: P.C.O.S Hirsutism	Unit 4
Week 5	Chapter 17: Premature Rupture Membranes Chapter 18: Post Term Pregnancy Chapter 43: Premenstrual Syndrome Chapter 44: Cell Biology, Cancer Therapy Chapter 45: Gestational Trophoblastic Disease Chapter 46: Vulvar, Vagina Disease Chapter 47: Cervical Neoplasia, Cancer Chapter 49: Cancer Uterus Chapter 50: Ovarian Adnexal Disease	Case 57: Post Menopausal Bleeding Case 58: Cervical Cancer Case 5: Fetal Bradycardia – Cord Prolapse Case 60: Lichen Sclerosis Vulva Case 59: Ovarian Tumor Case 15: Pulmonary Embolus in Pregnancy	Unit 5
Week 6	Review	Other interesting cases: 2, 3, 13, 14, 21, 31, 56	Review

Assignments

Students also confirm competency in core content topics by completing all required assignments.

1. History & Physical Taking Project (due by the end of week 3)
2. Reflection on First Delivery (due by the end of week 3)
3. Labor and Delivery Project (OB Packet, due by the end of week 5)
4. uWise quiz questions

Further details and forms/questionnaires necessary to complete the required assignments are located on the **OB/GYN Clerkship Blackboard site**. Students must turn in completed assignments and reflection by their due date to the Clerkship Director and via Blackboard to the Education Director.

NBME Subject Exam

At the completion of the six week clerkship, students must take and pass the NBME subject exam in Obstetrics and Gynecology.

Competencies-Objectives-Assessment

COMPETENCY DOMAIN & PROGRAM SPECIFIC OBJECTIVES						CLERKSHIP SPECIFIC OBJECTIVE	ASSESSMENT METHOD
PC	MK	PBL	CS	Prof.	SBP	1) Demonstrate specific core clinical skills necessary to care for female patients.	
X	X					SLO 1.1: The student routinely includes information about the patient's menstrual, obstetric, gynecologic, sexual and/or contraceptive histories when performing the medical history.	Observation by Clerkship Faculty and Clerkship Director
X						SLO 1.2: The student routinely includes a pelvic exam and standard breast exam when appropriate in the physical exam.	Observation by Clerkship Faculty
X	X					SLO 1.3: The student demonstrates best practice techniques when collecting gynecologic specimens (PAP smear, cervical cultures, and vaginal specimen for vaginitis evaluation).	Observation by Clerkship Faculty
X	X					SLO 1.4: The student identifies and implements age-appropriate preventive services.	Observation by Clerkship Faculty
X	X					SLO 1.5: The student utilizes evidence-based screening tools to identify women at risk for: depression, domestic violence, tobacco use, urinary incontinence, and osteoporosis.	Observation by Clerkship Faculty and Analysis of Patient Log data
X	X	X				SLO 1.6: The student utilizes evidence-based digital resources at the point of care to access clinical information.	Observation by Clerkship Faculty
X	X		X			SLO 1.7: The student demonstrates sound clinical reasoning by: 1) constructing organized and thorough patient presentations; 2) generating reasonable patient problem lists; 3) formulating appropriate differential diagnoses; and, 4) generating logical diagnostic and management plans.	Observation by Clerkship Faculty and Clerkship Director; and by NBME subject exam
PC = Patient Care, MK = Medical Knowledge, PBL = Practice-Based Learning, Prof. = Professionalism, SBL = Systems-Based Learning							

COMPETENCY DOMAIN & PROGRAM SPECIFIC OBJECTIVES						CLERKSHIP SPECIFIC OBJECTIVE	ASSESSMENT METHOD
PC	MK	PBL	CS	Prof.	SBP	2) Demonstrate core communications skills necessary to care for female patients.	
X			X			SLO 2.1: The student will demonstrate basic patient education skills when informing and educating patients about common health concerns.	Observation by Clerkship Faculty and Clerkship Director
X			X			SLO 2.2: The student will demonstrate basic counseling skills when addressing the following issues with patients: 1) contraception choices; 2) lactation/breast feeding; 3) osteoporosis prevention; 4) preconception recommendations; 5) prevention of sexually transmitted infections; and, smoking cessation.	Observation by Clerkship Faculty
			X	X		SLO 2.3: The student will demonstrate shared decision-making techniques when negotiating and communicating patient management plans.	Observation by Clerkship Faculty
PC = Patient Care, MK = Medical Knowledge, PBL = Practice-Based Learning, Prof. = Professionalism, SBL = Systems-Based Learning							

COMPETENCY DOMAIN & PROGRAM SPECIFIC OBJECTIVES						CLERKSHIP SPECIFIC OBJECTIVE	ASSESSMENT METHOD
PC	MK	PBL	CS	Prof.	SBP	3) Demonstrate core knowledge and basic skill in the delivery of Obstetrical and Gynecologic care.	
X	X					SLO 3.1: Preconception care: Every fertile patient; every visit.	Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam
X	X					SLO 3.2: Routine prenatal care, including: 1) diagnosing of pregnancy; 2) discussing the rationale behind initial and subsequent laboratory assessment of the pregnant patient; 3) discussing the appropriate use of diagnostic ultrasonography during pregnancy; 4) identifying women at high risk throughout the pregnancy; 5) recognizing and offering assistance for the common concerns of the pregnant woman; and, 6) recognizing the common complications of pregnancy.	Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam

X	X					<p>SLO 3.3: Care of the woman in labor, including: 1) diagnosing labor; 2) diagnosing ruptured membranes; 3) determining cervical dilatation; 4) monitoring the progress of labor utilizing Friedman's curve; 5) interpreting basic patterns on a fetal monitoring strip; 6) assisting/performing at least 3 vaginal deliveries; 7) assisting/performing at least 3 perineal repairs; and, 8) assisting/observing at least one operative delivery.</p>	<p>Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam</p>
X	X					<p>SLO 3.4: Routine post-partum care, including: 1) encouraging successful breastfeeding and recognizing common breastfeeding problems; 2) recognizing the symptoms and signs of an uncomplicated post-partum course; 3) identifying common post-partum conditions/complications; and, 4) assisting the patient with choosing appropriate post-partum contraception.</p>	<p>Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam</p>
X	X					<p>SLO 3.5: Pre-operative and post-operative care, including: 1) demonstrating appropriate scrubbing and sterile technique; 2) demonstrating basic skills as an operative assistant; 3) performing surgical-associated procedures (dressing changes, suture/staple removal, catheter care, etc.); and, 4) identify common post-operative complications in OB/GYN.</p>	<p>Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam</p>
X	X					<p>SLO 3.6: Ambulatory gynecologic care: Can complete the initial evaluation--history and physical exam--and identify the appropriate diagnostic testing for a patient presenting with: 1) vaginal discharge; 2) abnormal PAP smear results; 3) abnormal uterine bleeding, including post-menopausal bleeding; and, 4) breast mass/abnormal mammogram.</p>	<p>Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam</p>
<p>PC = Patient Care, MK = Medical Knowledge, PBL = Practice-Based Learning, Prof. = Professionalism, SBL = Systems-Based Learning</p>							

COMPETENCY DOMAIN & PROGRAM SPECIFIC OBJECTIVES						CLERKSHIP SPECIFIC OBJECTIVE	ASSESSMENT METHOD
PC	MK	PBL	CS	Prof.	SBP	4) Demonstrate professionalism in the approach to common OB/GYN clinical conditions and to patients with those conditions.	
	X			X		SLO 4.1: The student demonstrates knowledge of the ethical conflicts that arise in the practice of obstetrics and gynecology.	Observation by Clerkship Faculty and Clerkship Director; Analysis of Patient Log data; and, NBME subject exam
				X	X	SLO 4.2: The student demonstrates self-awareness of personal bias re: the ethical conflicts that arise in the practice of obstetrics and gynecology, and is able to be both respectful and helpful to patients who hold different ethical beliefs.	Observation by Clerkship Faculty and Clerkship Director
				X	X	SLO 4.3: The student demonstrates the capacity to self-reflect on experiences they have in the clinical setting.	Observation by Clerkship Faculty and Clerkship Director
				X		SLO 4.4: The student demonstrates the ability to communicate and work effectively with other health professionals.	Observation by Clerkship Faculty and Clerkship Director; and, Completion of Required Assignments
PC = Patient Care, MK = Medical Knowledge, PBL = Practice-Based Learning, Prof. = Professionalism, SBL = Systems-Based Learning							

Grading

The standardized clerkship policy can be found on the [Office of Medical Education website](#) and by [Clicking Here](#) .

Clerkship-specific grading criteria:

How the Final grade will be determined

1. NBME Advanced Clinical Examination in OB/GYN (you must pass to pass the clerkship)
2. Compliance with patient log data entry of at least 100 patient encounters, 60% of which must be full involvement (pass/fail) – **this must be completed by 5pm on the last day of the rotation**
3. Submission of all assignments (Reflection, Labor & Delivery Module, Differential Diagnosis) (pass/fail)
4. Faculty evaluations and clerkship director evaluations documenting competency in all required domains
5. Professionalism (pass/fail)

Policies

Americans with Disabilities Act

Candidates for the M.D. degree must be able to fully and promptly perform the essential functions in each of the following categories: Observation, Communication, Motor, Intellectual, and Behavioral/Social. However, it is recognized that degrees of ability vary widely between individuals. Individuals are encouraged to discuss their disabilities with the College of Medicine's Director of Student Counseling Services and the FSU Student Disability Resource Center to determine whether they might be eligible to receive accommodations needed in order to train and function effectively as a physician. The Florida State University College of Medicine is committed to enabling its students by any reasonable means or accommodations to complete the course of study leading to the medical degree.

Academic Honor Code

The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. (Florida State University [Academic Honor Policy](#))

Attendance Policy

The College of Medicine has detailed attendance policies as they relate to each cohort and events that conflict with course schedules. **See page 30** of [FSUCOM Student Handbook](#) for details of attendance policy, notice of absences and remediation.

Library Policy

The [COM Maguire Medical Library](#) is primarily a digital library that is available 24/7 through secure Internet access. Library resources that support this course are available under "Course Pages" on the library website. In addition, many of the point-of-care resources are available for full download to mobile data devices. Upon student request, items not found in the library collection may be borrowed through interlibrary loan.
