Instructors

Course Director

Gail T Galasko, Ph.D.

Office: Research Bldg., Room 3350-D

Office Hours: By appointment

Phone: 645-6449

Email: gail.galasko@med.fsu.edu

Faculty

Graham Patrick, Ph.D.

graham.patrick@med.fsu.edu

Pradeep Bhide, Ph.D.

pradeep.bhide@med.fsu.edu

Charles G. Maitland, M.D.

gerry.maitland@med.fsu.edu

Janet Shepherd, M.D.

janet.shepherd@med.fsu.edu

Phillip Treadwell, Pharm.D.

phillip.treadwell@tmh.org

Melissa Wilson, Pharm D.

mrwilson@chp.org

Faculty and Course Evaluation

Students will have the opportunity to evaluate each faculty member who teaches a major portion of the course, using a standard evaluation questionnaire. Students will also have the opportunity to evaluate the course at its conclusion. Suggestions and comments concerning the course, its material and conduct, are welcomed and may be made to the course director at any time.

Course Overview

Course Goals

Building upon the principles learned in Medical Pharmacology 201, students study in detail the pharmacologic agents used in treating disorders of organ systems. Drug classes, interactions, and specific usages with functional and clinical applications are presented with relevant clinical examples, including the use of therapeutic drug monitoring. Groups of drugs specifically considered include renal, gastrointestinal, hormonal, hematologic, analgesic, local anesthetic, central nervous system, ophthalmic, and dermatologic agents.

Learning Objectives

Course Objectives

The student should exhibit the following knowledge, skills, and behaviors:

Knowledge

1. Demonstrate knowledge concerning each major drug class discussed in the course, including:
 - a. Mechanism(s) of action,
 - b. Therapeutic uses
 - c. Major adverse effects
 - d. Important drug interactions
 - e. Prototype drug(s),
2. Demonstrate knowledge of the variations in drug response between individual patients, based upon age, disease, genetic traits, or other innate characteristics
3. Demonstrate knowledge of the effect of age on pharmacokinetics, and responses to therapy, with emphasis on geriatric patients
4. Develop an adequate basis of knowledge in pharmacology on which to build as the student advances through the clinical clerkship rotations
5. Develop knowledge of drug classes and mechanisms into which additional drugs can be incorporated, compared, and contrasted as new drugs become available and as the practice of medicine dictates.

Skills

1. Demonstrate an understanding of the general types and clinical usage of drugs for treating diseases of each organ system
2. Demonstrate the ability to recognize and understand the physicochemical and physiological factors that affect the absorption, distribution, metabolism, and elimination of drugs
3. Demonstrate an understanding of drug-receptor interactions and allied molecular phenomena at a basic level
4. Demonstrate an ability to interpret and analyze literature related to drugs

Attitudes and Behaviors:

1. Demonstrate professional behavior during activities in the course by being prepared, in attendance when required, on time, attentive, and a considerate and active participant in discussions.

Course Format

The course consists of 45 lecture hours, 7 hours of clinical discussion-tutorial sessions, 2 two-hour small groups and participation in 10 hours of integrated small groups or clinical case presentations. The examinations for the course are incorporated into the 4 integrated block examinations and the final comprehensive examination. In addition, 9 announced quizzes are graded and self-directed exercises may be introduced and graded.

Competencies

FSUCOM – Competencies - BMS 6402		
Competency Domains	Competencies Covered in the Course	Methods of Assessment
Patient Care	X	SP small groups, small and large group case studies. Internal exams and quizzes.
Medical Knowledge	X	Internal exams and quizzes and NBME Comprehensive Basic Science exam. Small and large group case studies.
Practice-based Learning	X	Treatment goals and targets, SP small groups, top 100 prescription drugs, quizzes and exams
Communication Skills	X	Evaluation in small group by SPs, facilitators.
Professionalism	X	Course Director observation. Faculty and SP observation during small groups.
System-based Practice		

Policies

Americans with Disabilities Act

Candidates for the M.D. degree must be able to fully and promptly perform the essential functions in each of the following categories: Observation, Communication, Motor, Intellectual, and Behavioral/Social. However, it is recognized that degrees of ability vary widely between individuals. Individuals are encouraged to discuss their disabilities with the College of Medicine's [Director of Student Counseling Services](#) and the FSU Student Disability Resource Center to determine whether they might be eligible to receive accommodations needed in order to train and function effectively as a physician. The Florida State University College of Medicine is committed to enabling its students by any reasonable means or accommodations to complete the course of study leading to the medical degree.

Academic Honor Code

The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. (Florida State University [Academic Honor Policy](#))

Attendance Policy

The College of Medicine has detailed attendance policies as they relate to each cohort and events that conflict with course schedules. See pages 27-29 of [FSUCOM Student Handbook](#) for details of attendance policy, notice of absences and remediation.

For BMS 6402: Unexcused absence from a scheduled examination may result in a grade of zero (0 %) being assigned for that examination. Unexcused absence from an activity for which attendance is required (for example, small group session or quiz) may impact the final grade and put the student at risk of failing the course. In addition, students who have an unexcused absence from an activity in which attendance is required, will, at the discretion of the course director, be given a remediation exercise to complete.

Required Materials

Required Textbook

Basic and Clinical Pharmacology, 12th Ed. (2012), B.G. Katzung, ed. (Available online at COM Medical Library webpage under “E-Books”, then scroll down to “Pharmacology” listing)

Required Website

The Medical Letter on Drugs and Therapeutics (**required**, subject to examination) (on Medical Library webpage under “Drug Information”)

Suggested Materials

Recommended Textbook

Goodman and Gilman’s The Pharmacological Basis of Therapeutics, 12th ed.

L.L. Brunton et al., eds., 2011. (Available online at COM Medical Library webpage under “E-Books”, in the “Pharmacology” listing)

Recommended Review Books

Katzung & Trevor’s Pharmacology Examination and Board Review, 8th ed., A.J. Trevor et al. eds., 2008. (An extensive review)

USMLE Road Map: Pharmacology, 2nd ed. (2006), B.G. Katzung and A.J. Trevor, eds. (An abbreviated review)

Recommended Websites

Treatment Guidelines (available on COM Medical Library website under “e-journals”)

Facts and Comparisons Drug Information (available on COM Medical Library website under “Med resource List”)

e-Pocrates (available on COM Medical Library website and on Axim handheld devices)

Grading

Assignments

Questions pertaining to Pharmacology 6402 (~34 - 50 per examination) will be included in four integrated examinations and in the final comprehensive examination for the second year. Four (4) announced quizzes will also be given in the course. The integrated quizzes are formative and do not contribute to the final exam average. Each student will also participate in self-directed exercises. The types of questions may include computer-graded formats (multiple choice, matching) and open-ended, short answer questions. These exercises will count towards the final grade.

Unexcused absence from a scheduled examination may result in a grade of zero (0 %) being assigned for that assessment. Attendance at formative quizzes is required. Unexcused absence from an activity for which attendance is required (for example, Small Group session) may be considered as an issue of Professionalism and require completion of the Performance Improvement Program.

Professionalism (P/F) will be assessed by SPs in small group activities. Students who fail this component of the course will be required to remediate by completing an exercise as determined by the course director.

Grading System

FSU COM has adopted a pass/fail grading system which is used in the curriculum for the first and second years (See [page 31](#) of Student Handbook). To achieve a grade of Pass in BMS 6402 (Pharmacology) a student must meet all of the following requirements:

- 1) A final average $\geq 70\%$ on the combination of all examination questions. An average $<70\%$ will receive a grade of fail, which will require remediation or repetition of the course, as determined by decision of the Student Evaluation and Promotion Committee. A student whose performance is below passing during the course, i.e.,
 - $<65\%$ on any one examOR
 - $<70\%$ on any two exams in the semester

is required to engage in and complete the Performance Improvement Program in consultation with the Course Director. The purpose of this program is to assist the student in developing the skills and habits necessary to succeed in the curriculum as well as to address specific performance deficits.

- 2) Attendance and satisfactory participation in all required sessions, as determined by the Course Director. Unexcused absence from an activity for which attendance is required (for example, Small Group session) may be considered as an issue of Professionalism and require completion of the Performance Improvement Program.
- 3) Satisfactory completion of all assignments, as determined by the Course Director.
- 4) Demonstration of the attitudes and behaviors of Medical Professionalism in all aspects of the course. Issues of Professionalism may require completion of the Performance Improvement Program.
