Course Overview

Course Overview

The Summer Clinical Practicum [BMS 6940] is an immersive, experiential learning activity providing opportunities for students to practice and improve basic clinical skills. Students are assigned to a primary care physician to participate in patient care activities under the direct supervision of the primary care physician. This course also provides students opportunities to participate in patient care activities at locations throughout the state of Florida and into southern Georgia.

Course Goals

- Provide clinical learning experience
- Increase awareness of the impact of wellness and illness on the patient.
- Increase awareness of the impact a physician may have in the lives of his/her patients.
- Increase awareness of the responsibilities of a physician in a community
- Develop life-long learning skills of reflection and self-evaluation

Learning Objectives

By the end of this experience a student will:

- Demonstrate the ability to obtain a focused history and perform a physical exam appropriate to the patient history.
- Demonstrate the ability to identify personal, social and spiritual factors important to an individual patient's health care.
- Document subjective and objective information in a SOAP format.
- Develop a set of goals and objectives for his/her own continued growth and development
- Use reflection to enhance experiential learning.

Course Format

- Session 1: April 29 through May 17, 2013
- Session 2: May 20, 2013 through June 7, 2013

Competencies

FSUCOM – Competencies - Summer Clinical Practicum [BMS 6940]		
Competency Domains	Objectives	Methods of Assessment
Patient Care	Demonstrate the ability to obtain a focused history and perform a physical exam appropriate to the patient history.	Direct observation by Clinical Faculty
Medical Knowledge	Document subjective and objective information in a SOAP format.	Direct observation by Clinical Faculty and SOAP note assessment by Course Director
Practice-based Learning	Develop a set of goals and objectives for continued growth and professional development Use reflection to enhance experiential learning.	Written reflection assessment by Course Director and D1 Faculty
Communication Skills	Demonstrate the ability to identify personal, social and spiritual factors important to an individual patient's health care.	Direct observation by Clinical Faculty; Narrative Competency reflection
Professionalism	Maintain patient confidentiality	Direct observation by Clinical Faculty and Course Director
System-based Practice	Function effectively as part of a health care team	Direct observation by Clinical Faculty and Office Staff; Written reflection
NOTES:		

Policies

Americans with Disabilities Act

Candidates for the M.D. degree must be able to fully and promptly perform the essential functions in each of the following categories: Observation, Communication, Motor, Intellectual, and Behavioral/Social. However, it is recognized that degrees of ability vary widely between individuals. Individuals are encouraged to discuss their disabilities with the College of Medicine's [Director of Student Counseling Services](#) and the FSU Student Disability Resource Center to determine whether they might be eligible to receive accommodations needed in order to train and function effectively as a physician. The Florida State University College of Medicine is committed to enabling its students by any reasonable means or accommodations to complete the course of study leading to the medical degree.

Academic Honor Code

The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. (Florida State University [Academic Honor Policy](#))

Attendance Policy

The College of Medicine has detailed attendance policies as they relate to each cohort and events that conflict with course schedules. See pages [FSUCOM Student Handbook](#) for details of attendance policy, notice of absences and remediation.

Students are expected to be present with their Preceptor whenever the Clinical Faculty is seeing patients.

Grading

Assignments and Grading

The basic responsibility for achieving course objectives rests with the student. The Clinical Faculty role is to act as a resource and provide feedback and appropriate patient care experience within the clinical faculty's practice. The student is responsible for accomplishing the objectives and completing the assignments.

FSU COM has adopted a pass/fail grading system which is used in the curriculum for the first and second years (See page 31 of [Student Handbook](#)). To achieve a grade of Pass in the Summer Clinical Practicum [BMS 6490r] a student must meet all of the following requirements:

1. Receive a satisfactory evaluation from the Clinical Faculty Preceptor.
2. Define personal objectives for the course. At the conclusion of the first day of their clinical experience the student will write a list of 2-3 personal objectives, focusing on personal and professional growth related to the course objectives. These personal objectives are to be reviewed with clinical faculty and sent to the Course Director by [email](#) NO LATER THAN 5 PM of the second day of the course.
3. Submit a de-identified and HIPAA-compliant progress note on one patient encounter using the appropriate SOAP format to the Course Director NO LATER THAN the beginning of the third week of the course.
4. Record in the Evaluation and Management section of the e*Value PxDx system a minimum of 15 patient encounters during which they perform either a history or physical exam. During the course, students should perform and record at least 5 of the 6 following history types (Hx): family history, functional Hx, history of present illness (HPI), past medical history (PMH), review of symptoms/systems (ROS), social history (SHx) and at least 6 of the following 8 physical exam procedures (PE): Abdominal, Heart, Musculoskeletal, HEENT, Neurological, Pulmonary, Skin, and Vital Signs.
5. Complete the narrative competency module:
 - a. Watch an 18 minute TED talk "[Honoring the Stories of Illness](#)" by Rita Charon available at either of the following URLs
<http://tedxatlanta.com/videos/09132011-balance/rita-charon/>
<http://www.youtube.com/watch?v=24kHX2HtU3o>
 - b. Complete a "no-agenda" interview of one patient or patient family dealing with a chronic health issue: "Please tell me what you think I should know about your situation."
 - c. Write a reflection on this interview, focusing on any differences you perceive between the information gathered in this interview and the information gathered by standard histories and how narrative competence supports patient centered care;.
 - d. Submit this reflection to the Course Director by [email](#) NO LATER THAN 5 PM on the last day of the course, and upload the reflection to your portfolio.
6. Write a final reflection (~250 words) of his/her experience during the course. The student should review his/her personal objectives and describe how the SCP experience helped her/him meet or not meet one or more of these objectives. To be considered a satisfactory completion of this requirement, the reflection must be submitted to the Course Director by [email](#) NO LATER THAN noon on the last day of the course. The student will also add this document to her/his portfolio.
