

**Florida Academy of Family Physicians
Family Medicine Winter Summit 2015
Topic Educational Objectives**

The Familiar Physician

- increase revenue by 30% - 70%
- improve patient satisfaction, quality care, and same day access
- take staff morale to new highs
- renew the joy and pleasure of the practice of medicine
- take four weeks of vacation and go home on time every day
- focus your training on the patient, not a computer

ER/LA Opioid REMS: Achieving Safe Use While Improving Patient Care

- describe appropriate patient assessment for treatment with ER/LA opioid analgesics, evaluating risks and potential benefits of ER/LA therapy, as well as possible misuse
- apply proper methods to initiate therapy, modify dose, and discontinue use of ER/LA opioid analgesics, applying best practices including accurate dosing and conversion techniques, as well as appropriate discontinuation strategies
- demonstrate accurate knowledge about how to manage ongoing therapy with ER/LA opioid analgesics and properly use evidence-based tools while assessing for adverse effects
- employ methods to counsel patients and caregivers about the safe use of ER/LA opioid analgesics, including proper storage and disposal
- review/assess general and product-specific drug information concerning ER/LA opioid analgesics and identifying potential adverse effects of ER/LA opioids

Navigating the Pathophysiology and New Treatment Options for the Effective Management of Onychomycosis

- implement current evidence-based guidelines for the detection and diagnosis of pre-diabetes and diabetes
- describe the role of the kidney and SGLT2 inhibition-based therapeutic strategies for treatment of patients with T2DM
- apply evidence-based and individualized management strategies to ensure appropriate and optimally effective management of T2DM

Journal Article Review

- Discuss the current state of knowledge with reference to literature
- Determine findings of the articles/studies
- Interpret results and their potential to impact daily practice

Skin and Soft Tissue Infections

- identify the new guidelines on treatment of skin and soft tissue infections
- describe treatment of MRSA
- discuss newer antimicrobials
- review rabies prophylaxis

'It's the Cholesterol Measurement, Right?'

- list the components of a lipoprotein panel
- identify the importance of each lipoprotein component
- discuss why treatment of the lipoproteins makes a difference
- review the medication choices in lipid management

Adult Cardiac Murmurs: A Step-by-Step Guide to Auscultation

- recognize common heart murmurs
- list diagnostic criteria differentiating benign vs abnormal murmurs
- outline appropriate work up of suspicious heart murmur
- discuss SBE guidelines

Five Things I Wish I Knew Last Year 2015

- become familiar with melanoma diagnosis through patch-testing for RNA
- manage warfarin appropriately for dental procedures PTSD
- recognize the therapeutic roles of tranexamic acid

Syllabus Self-Study

Getting Control of Your Online Information

- locate where to find personal information on the internet
- review how to alter the information of you and your practice
- discuss how to ensure accuracy of the information
- choose how to monitor your online information

Technology and Medicine: Medical Apps to Make Life Easier for You and Your Patients

- identify point of care medical apps for the family physician - iPod/iPhone/iPad; droid; laptop
- demonstrate a clinical use of identified apps
- discuss how to locate and download apps to various devices
- list new health apps developed for patient use

HIV Update

- be familiar with the epidemiology, virology, principle clinical manifestations and therapy for persons with HIV
- implement recommended procedures that will protect the healthcare team
- discuss the role of family physicians in identifying opportunities for testing and preventive strategies

Non-Alcoholic Steatic Hepatitis (NASH)

- discuss critical importance of identification of NASH
- explain the comorbidities of NASH
- identify treatment options for NASH

ICD-10 Workshop

- be familiar with the new changes implemented 10/15
- recognize the comparative performance reports and how they may be used
- identify 'red flags' for audits

Commercial Driver Exam Workshop

- Apply knowledge of FMCSA's driver physical qualifications standards and advisory criteria to findings gathered during the driver's medical examination
- Make determinations of the driver's medical and physical qualifications for safely operating a commercial motor vehicle (CMV) in interstate commerce.

Medical Errors Workshop

- discuss systems which must be in place to reduce errors and review use of new information and communication technologies to allow for these improvements
- identify the five most mis-diagnosed conditions as determined by the Board of Medicine
- satisfy the State of Florida licensure requirement including a study of root-cause analysis, error reduction and prevention, and patient safety
